Work Keys for Job Seekers: The Career Readiness Credential (CRC) enables you to show prospective employers that you possess the basic foundational skills they are looking for and have the trainability for success in an organization. The CRC verifies that you can handle the kinds of tasks – finding information, reading instructions and directions, even working with figures – that are common in today's workplace.

**How does the Career Readiness Credential work?
Building on a Proven Program**

The CRC is based on established Work Key assessments, a nationally recognized system. To earn a CRC, individuals undergo testing related to reading, applied math, and locating information through the Work Keys skills assessment system. The credential confirms a person's competence in these skill areas and provides documentation to an employer in today's workforce.

How to Earn a CRC

Finger Lakes Workforce customers can obtain a Career Readiness Credential by taking the three Work Keys assessments. Contact a Finger Lakes Workforce One Stop Center Representative or call 315-536-5140 for more information.

Ask about SMART 2010 Today!!!

SMART 2010 is a computer program that analyzes a customer's resume for skills and work experience. Using that data, the computer can establish matches with current jobs throughout the state. The system then recommends to the client by means of E-mail a number of job matches based on the likelihood that the individual will follow the same career path. Many job seekers possess skills for jobs that they may not consider in their day-to-day job searches. SMART 2010 looks at the entire person as a result of their resume. The program then searches for the best job openings available, immediately opening the door to

Resume 101 (1 hour): An individual's resume is the first impression for a potential employer. A resume is a summary of experiences, skills, abilities, qualifications, and personal characteristics that are highlighted to present how a person can be an asset to a business or agency. Whether you have a resume prepared or would like to create a resume for the first time, this workshop will help give you valuable information on how to present yourself to a potential employer.

Interviewing Skills (1 hour): You got the interview, now what? Find out what employers want to know through this informational workshop about interviewing skills and techniques. Learn the importance of making a good first impression, how to best present yourself, and answering those tough questions during the interview.

Budgeting Workshop (1 hour): Information on money management including personal checking and savings accounts, credit cards, and personal loans.

Job Club: Come network with other job seekers and gain information about how to effectively seek and obtain employment. As part of this group, you will learn the fundamentals of networking, share leads, provide support, exchange information, and share experiences that will assist you in your job search and career goals. The program is valuable for any occupation and at any level of education; connecting work skills, training, and testing.

Work Keys: The basis for the **National Career Readiness Credential (CRC)**, which certifies that job seekers have the core employability skills required across all industries and occupations. The CRC validates job applicants' skill levels in the three areas selected by employers as the most important: Reading for Information, Locating Information, and Applied WorkKeys assessments are designed to identify training or remedial training needs to increase a person's marketability. Skill gaps can be addressed and closed through an online training program, Key Train, designed to bolster your WorkKeys skills.
