Shipping and Assembly (Stanley, NY)

- Growing company has shipping needs that run from 1-6PM each day. Shipping is mostly by UPS. Shipping experience is a plus of course, but not required. Some days when the shipping is light, you will be expected to help with preparation of the parts we use. This keeps your schedule varied. Along the way you will learn many different manufacturing techniques from gluing, soldering, polishing, operation of mills, lathe, saws and more depending on the person. If you want, these manufacturing operations could make this a full-time position. Experience in mechanical and/or electrical assembly, or manual dexterity would be an asset for this part of the job. We believe that the workplace should be a pleasant place to be. One of the ways we try to be the best place to work is our flexible schedule; while the shipping part of the job is dictated by the UPS truck, the assembly part is wide open to whatever schedule you want. This is a low-pressure, pleasant environment. We offer 11 paid holidays, partially subsidized healthcare. Craigslist post ID: 6515799217 3/2/18

Frequently Asked Questions about Career Navigator

I have already attended workshops at Finger Lakes Works or elsewhere, why do I need this?

Career Navigator will explore some of these topics in more depth. You will also have the opportunity to work on your own personal assessment and plan your job search within a group structure that will become an important support system throughout your search.

I don't think I need it. I didn't have a problem finding a job before.

Let's hope that's the case again! Today's market figures, however, point to a more extended and challenging search period. Why not arm yourself with the most effective skills and tools for creating a successful outcome in the current job market?

I don't know what I want to do.

It's very common, and a good idea, to reassess career options at this time. Career Navigator will walk you through the self-assessment process, help you identify the skills you have that could be applied in another industry or occupation and give you the tools you need to explore those options so that you can make the best choices.

Will this get me a job?

No one can get you a job except you! Career Navigator will equip you to do the best job possible in that endeavor. CN is your launching pad to identify the tools and strategies that will prepare you to compete in today's job market.

Why do I need this? I have a good resume and/or I interview well.

Job search has changed and the strategies for successful job search are more than a resume or interview. Over 70% of job landings contain a component of networking.

I already have interviews lined up.

Are you getting interviews for jobs that you would take? Do you know how to be the candidate that is chosen from the interview? Do you know how to follow up after the interview process? Career Navigator will arm you with important interview, follow-up and negotiation techniques.

This layoff might be temporary.

In the event that it isn't, or that it occurs again, you can use this time to get the training you'll need, regardless. If other opportunities present themselves or in a future layoff, you'll be ready.

There aren't any jobs anyway, why should I bother.

You're right that most jobs aren't evident, but it doesn't mean they don't exist. In Career Navigator, you'll learn to find the "hidden job market." You'll learn how to get to the hiring managers before a job is even identified or posted. And you'll get the group support you'll need to be persistent in your search.

I am enrolled in training/school.

Getting new skills or updating your existing skills is good strategy. You'll still need to look for a job and you need job search skills. Career Navigator is the perfect way to begin the process even before you're done with school. Wouldn't it be great to have that new job waiting for you when you're finished?
