**NEGATIVE DECLARATION**  
Notice of Determination of Non-Significance

**FILE COPY**

Project Number SP-4-16

Date: May 5, 2016

This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review Act) of the Environmental Conservation Law.

The Village of Penn Yan Planning Board as lead agency, has determined that the proposed action described below will not have a significant environmental impact and a Draft Impact Statement will not be prepared.

**Name of Action:**  
4M Rebuilt, LLC

**SEQR Status:** Type 1   
Unlisted

**Conditioned Negative Declaration:**  Yes  
 No

**Description of Action:**

11,700ft<sup>2</sup> wood-framed building with office space and a shop area..

**Location:** Horizon Park Drive, Penn Yan, NY 14527, County of Yates.

**Reasons Supporting This Determination:**

The impact of this well drilling business is acceptable and not considered excessive with regard to:

**Aesthetics** - All prominent or conspicuous rigging and equipment will be housed inside the building so the site will be visually compatible with the other business park occupants.

**Traffic patterns and noise** - Volume of traffic and noise expected to be generated are compatible with the business park.

**Existing air quality** - No change.

It was determined there would be no change in the impact on existing vegetation, fauna, or habitat.

The project will have minimal impact on the quality or quantity of surface and ground water, and no impact on potential erosion, drainage issues, or flooding since storm water concerns were already addressed when the business park was developed.

It was determined there would be no major change in the use of either the quantity or type of energy and no substantial change in the land use density or in the capacity to support existing uses.

The project location does not fall wholly or partially within, nor is it substantially contiguous to, an historic boundary, public park land, recreation area, or designated open space. It will not have any impact on important historical aesthetic resources.

The site does not contain species on the endangered list.

The project will not impair the environmental characteristics of the area.

There will be no growth or subsequent development induced by this activity.
